Dear Sir,

I've been playing semi-professional baseball for four years

I've just been discharged after two and one half years in the Army.

I would like very much to get a tryout with the Newark Eagles, Black Yankees or any other professional baseball club, but do not know

any influential people who could help me contact the management. I would appreciate it very much if you would help me out. My main position is catcher and I can also play third base.

I'm twenty one years old and have always been an athlete, having starred in football and track at Wildwood High School and Bordentown Manual, also served as

a lifeguard on Wildwood Beach for two years.

Before entering the Army I was offered a tryout with a Cleveland proffesional team, but due to entering service I was unable to accept.

Thanking you in advance, I remain

Ray Harris
